Immobilise Property Database

Introduction

Suffolk Police has joined forces with the online property database 'Immobilise' to help keep property safe and reunite stolen items with their rightful owners across the county.

Many items of identifiable property are either lost or stolen each year. By taking the time to register property on the Immobilise database, people can take a positive step towards reducing the crime.

Their registered property would be identifiable to all law enforcement agencies across the country. This in turn will help the police reunite property to their lawful owners and will also help to catch criminals.

Almost any possession with a serial number can be registered for free, including:

- Mobile phones
- iPods, other MP3 players and games consoles
- Laptops, computers and PDAs
- Satellite navigation and in-car equipment
- Bicycles.
- Watches, jewellery, art and antiques can also be registered for a small fee. Users who upgrade can also add photos and certificates of ownership to their account.

Many items of property which are recovered from criminals are not restored to their rightful owners, as without information on serial numbers or property marking police do not know who they belong to.

Register

If you would like to register your valuables visit:
